Musicola

Coin Operated
Automatic Record Player

Model No. M.12/10

Exquisite Tone - - -

The MUSICOLA coin-operated record-player, unrivalled in quality and tone, gives patrons a choice of twelve records, which it automatically selects and plays. You have only to choose your record, press the corresponding button, insert the coin, to hear music to your individual taste.

MUSICOLAS are proving a great attraction, and a perfect means of providing recorded classical or modern music throughout the world in CAFES, HOTELS, HAMBURGERS, GUEST HOUSES, MILK BARS, FUN PARLOURS, CARNIVALS, BEER GARDENS.

But the greatest charm of the MUSICOLA lies in the faithful quality of reproduction, whether the volume, which can easily be controlled by the proprietor only, be high or low. The most modern features are incorporated in the MUSICOLA, enabling it to be operated to the fullest capacity — twenty-four hours a day if required.

The pleasing appearance of the MUSICOLA adds to the decor of any establishment.

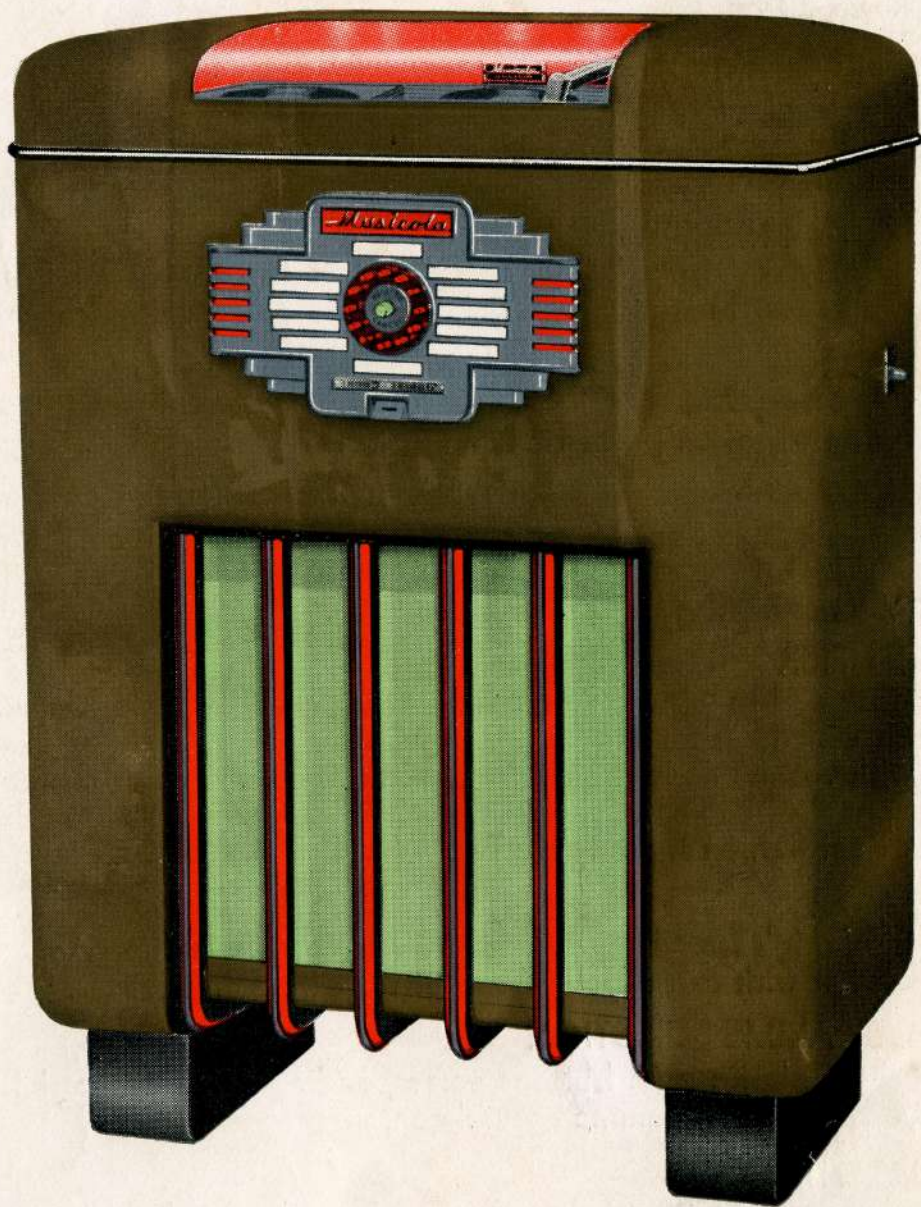

The simple mechanism of the MUSICOLA permits general servicing to be carried out by even the least mechanically minded proprietor. The viewing of the movement through a coloured plastic window is an added and continued attraction for patrons.

Increase the popularity of your cafe or social centre by installing a MUSICOLA now.

Not only will it pay for its installation, but will earn handsome weekly profits.

Constructed by skilled craftsmen, using only the finest materials, the MUSICOLA is ensured of a long life with a maximum of trouble-free operation.

Superb Performance

Musicola

Model No. M.12/10
